

## CF27R Aztec

### Commercial Chocolate Fountain

Sephra's 27" Aztec is a must for all caterers and chocolate fountain entrepreneurs. Perfect for small to medium sized events, the Aztec is the perfect accent fountain for other fondues or other types of chocolate, and adds a touch of variation to your chocolate fountain display. Crafted with the same superior quality, the Aztec is the ideal chocolate fountain to get you started in the Chocolate Fountain Business, at a very affordable price.

DIMENSIONAL SHIPPING WEIGHT: 43KG  
EXTERNAL BOX 1: 61CM X 30CM X 117CM  
**PADDED CASES INCLUDED**

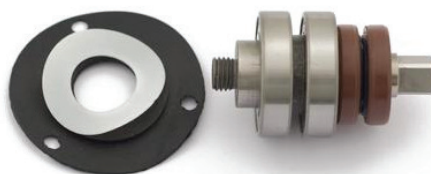

# Servicing and Spares

## CF23/27 Square Shaft Replacement Kit

This kit is to maintain the 23" Cortez and 27" Aztec commercial chocolate fountain models that have the removable basin and the Square shaft spindle.

The parts in this kit are the normal wear and tear parts that should be replaced every 2000 hours of fountain use. If the fountain is not maintained by changing these parts, chocolate can pass through the seals and damage the motor.

This kit is fairly easy to replace yourself or you may send your fountain to us to replace it for you as part of our service plan.

THIS KIT INCLUDES THE FOLLOWING PARTS:  
2 BEARINGS, 2 SEALS  
1 LONG LIFE SQUARE DRIVER SHAFT  
1 TEFLON WASHER AND 1 GASKET

## Stabilizer- 27" Commercial Fountain

Stabilizer for the Commercial 27" chocolate fountain. The stabilizer fits at the top of the cylinder or tube of the fountain and holds the auger screw that pulls the chocolate to the top in place.

This stabilizer is for the Quick Set tier system which means that it will only work on tiersets where the tiers simply slide down and rest on a ledge and are not screwed on to the center cylinder.
