

CFI8E - Classic

Domestic Chocolate Fountain

The Sephra 18" Classic fountain holds the most chocolate (2.5Kg) of all the home fountains in the market and also melts the chocolate in the base of the fountain.

The Sephra Classic Chocolate Fountain is sure to make a statement with elegant styling and a beautiful brushed stainless steel base. Perfect for small to medium sized gatherings, the WhisperQuiet motor and ability to turn the heat on and off allow you to use virtually any fondue, including caramel, cheese, BBQ sauce, and even Ranch dressing.

The QuickSet tiers and dishwasher safe parts allow for quick and easy set up and clean-up. Each Classic Chocolate Fountain comes with six metal fondue skewers, and a fondue testing funnel to create your own fondues.
